**LIGHTWEIGHT SLATE
ROOFING SYSTEM**

info@slate2.com
(888) 994-0842

SLATE2 TILES ARE THE SAME AS TRADITIONAL TILES

SLATE2 tiles are just as thick and custom cut to work with our interlayment system

BENEFITS

Lighter: No Structural Upgrades

Cheaper: Less Slate, Durable, Low Cost, Fire Resistant, Easier to Transport

Greener: Long Life, Energy Efficient, Environmentally Friendly

Classier: Beautiful, Historical, Resale Value

SLATE2 uses traditional slate cut to non-traditional sizes combined with a proven interlayment to provide a lightweight alternative to a traditional slate roof.

SLATE2 tiles are just as thick as traditional slate tiles. A **SLATE2** roof looks indistinguishable from a traditional slate roof after installation.

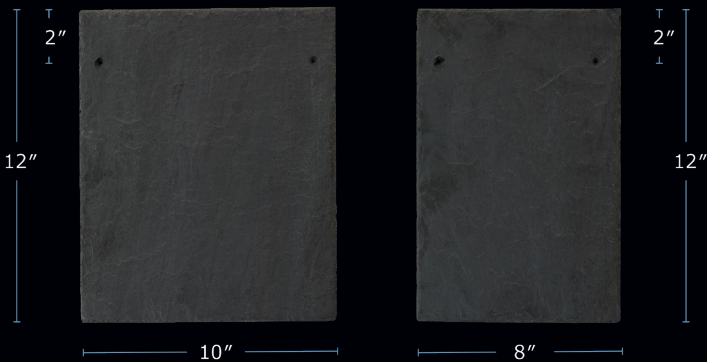

Five of our slates can be used with the **SLATE2** system:

- Galcar
- Del Castillo
- Brazilian Charcoal
- Vermont Strata Gray
- Vermont Gray Green
